About the VEDIT: You will be glad to know that V.D. (Varun Dhaka) Institute of Technology, Delhi -86 was promoted by Rahul Dhaka Vikas Society during the session 1999-2000. Since then it is involved in creating prospective teachers for the nation.

The Institute offers the regular professional Bachelor of Education (B.Ed.) and DIPLOMA IN ELEMENTARY EDUCATION (D.El.Ed.) courses. While the B.Ed. course is recognized by National Council for Teacher Education and affiliated to Guru Gobind Singh Indraprastha University, Dwarka, New Delhi, the D.El.Ed. Diploma course is affiliated to SCERT, New Delhi.

To keep pace with the modern trend and competitive spirit of educational Institutions for the sake of quality education, the Institution appoints well qualified academic and administrative human resources. As far as the physical resources are concerned, it maintains the state of the art facilities – spacious and well furnished air conditioned lecture rooms, well equipped ICT, Science and Psychology laboratories , a magnificent library a verity of standard course books, study material, reference books, encyclopedia and Book Bank facility, effective Audio-Visual Aids, a big playground, sports material, O.H.P., Film Projector, LCD Projector, Colour T.V., VCR, VCD, Internet devices, Smart classrooms, an Auditorium and Conference Hall with seating capacity for 150 persons each. Besides the above, all primary amenities are available in the campus for the convenience of scholars.

About the FDP: The National Education Policy 2020 (NEP 2020) marks a significant paradigm shift in the Indian education system. With its visionary approach and comprehensive reforms, NEP 2020 aims to transform education in India, aligning it with the needs of the 21st century. In this Faculty Development Programme, we will explore the key highlights of NEP 2020 and how it brings about a transformative change in the Indian education landscape.

Holistic Development:

NEP 2020 emphasizes the holistic development of students, focusing not only on academic excellence but also on their social, emotional, and physical well-being. The policy recognizes the importance of nurturing their creativity, critical thinking, problem-solving skills, and values.

Multidisciplinary Approach:

NEP 2020 promotes a multidisciplinary approach to education, encouraging students to explore various subjects and domains. It breaks the traditional boundaries between arts, sciences, and vocational studies, allowing students to develop a broader perspective and interdisciplinary knowledge.

Flexibility and Choice:

The policy provides flexibility and choice to students in selecting subjects, courses, and learning pathways. It offers a wide range of electives, vocational courses, and academic options, empowering students to pursue their interests and talents.

Technology Integration:

NEP 2020 recognizes the significance of technology in education and promotes its integration across all levels. It emphasizes the use of digital resources, e-learning platforms, and online tools to enhance teaching and learning outcomes, making education accessible and engaging.

Teacher Empowerment:

NEP 2020 focuses on empowering teachers by providing them with opportunities for professional development, continuous learning, and innovative pedagogical practices. The policy aims to transform teachers into facilitators and mentors who inspire and guide students in their learning journey.

Assessment Reforms:

NEP 2020 brings about changes in the assessment system, moving away from rote memorization and high-stakes examinations. It emphasizes competency-based assessments that evaluate students' conceptual understanding, critical thinking, problem-solving abilities, and practical skills.

Inclusivity and Equity:

The policy lays a strong emphasis on inclusivity and equity, ensuring access to quality education for all students, including those from marginalized backgrounds and differently-abled learners. It aims to bridge the educational divide and promote social justice.

Aims and Objectives of FDP:

The programme's goal is to improve the academic and intellectual environment in the Institution by giving faculty members ample chances to do research and take part in seminars, conferences, and workshops. Faculty members' research and teaching abilities would be upgraded through participation in such a programme.

The Faculty Development Program (FDP) will address TEACHER EDUCATION IN NEW PARADIGM SHIFT ACCORDING TO NEP- 2020 Upgrading of pedagogy and educational technology, motivation, communication skills, management, and other pertinent issues in order to keep up with the changing landscape in technical education.

Who Can Participate: This FDP is open to Teacher Educator, Faculty Members, Principals, School Teachers and PhD / M.Ed. Research Scholar, Post Doctoral research scholars from all over India. The participants would be required to ensure they attend 80% of the sessions. Based on the assessment and attendance, a certificate of completion would be given to the participants
